A. O. Stanley in his first race, and he is fond of telling his many experiences in that memorable campaign which meant as much to him. which meant so much to him.

In 1897, when he was young and penniless, although he contends the Sub. latter condition has not improved much, Mr. Stanley became a candidute for the Democratic nomination of for County Attorney of Fleming county, for which he had several opponents and the machine against Sub.

The primary had been called for late in December and for several weeks before it was held that section had been visited by floods and tion had been visited by floods and blizzards, which made campangning in the rural districts practically out of the question. While the other candidates, and in fact everybody else, kept indoors and electionecrang was suspended, Mr. Stanley, who wanted the office more than anything else at that time, conceived the idea that it would be an opportunity for him to brave the elements and said the voters while there was lattle likelihood of any of his opponents being lihood of any of his opponents being round.

Procuring a pair of rubber wading boots and an oilskin coat, he callied forth to get votes, frequently giving an imitation of Washington crossing the Delaware, in fording the swellen streams running with ice. How he miniaged to cross the flooded creeks and escape freezing to death Mr. Stanley says he will never know, but he attributes it to a benign Provi-dence. One big advantage that he dence. One big advantage that he had, and which he counted upon in advance, was that he found all the voters at home and around blazing log fires, with nothing to do but hear his claims for the nomination he sought and his hazardous experiences in venturing to electioneer under such difficult conditions.

As he had figured it out, Mr. Stanley had the campaign all to himself for several weeks during which the floods and bitter cold lasted, and the grit he showed in seeking office under such unfavorable circumstances made

held they did not forget thwsley Stanley for county attorney, and he won the nomination with flying colors and was subsequently elected to the office, which gave him the start in his political enreer that includes six terms as a congressman, one term as governor and the present of six governor and the prospect of six years more as l'nited States Senator. -Kaltenbacker in Louisville Times.

\$8,000,000,000 BY TAXATION The new revenue hill, which has been under preparation for several months, is at last in shape for consideration in Congress. It is the greatest tax raiser ever conceived by the nation, and it is expected to raise the almost inconcievable sum of eight billions of dollars, and effects nearly every individual. Estimating the population of the country at 106,012,000, it is \$76.76 per capita, a third more than the money per capita, which was \$52.44 August 1st. The tax represents more than the combined value of all crops and all live stock on the farms. Excess profits, as they should, will yield the largest amount, \$3,941,633,000, and taxes on incomes \$1.482,186,000, Alcoholic beverages, wines and soft drinks are expected to pay \$1,137. drinks are expected to pay \$1.137, 600,000, and so on. Incomes of \$3. 000 and over are taxed 3 per cent, with an increasing scale as they go up. The money has to be raised to prosecute the war, and we who foot the bills are doing nothing to compare to those who are giving their blood and lives. Let every man do his duty by reporting his holdings in full. The government metes out soere punishment to the men who fail or refuse to answer the call to reginter and enlist, and it will surely not be less stringent with the slackers who refuse to do their utmost with their money.

According to the war department 200,000 pounds of lemon drops are issued to the soldiers per month, constituting 15 per cent. of the candy furnished the army, which is given a regular ration of the sweet. The drops are decidedly the favorite, when made by the government formula which provides pure granulated. when made by the government form-ula, which provides pure granulated sugar, flavored with an emulsion made from the rind of the lemon and giving them the thirst-quenching qualities of lemonade. No other gov-ernment has tried to cater so fully to the wants of its defenders as ours and the men appreciate and show it by the most loyal service.

A RANGE ETERNAL and a 7-piece set of Aluminum Ware for the price of the RANGE.

We are making an unusual offer for a few days beginning Monday, Sept. 9, in giving tree a Ten Dollar Set of Aluminum Ware with every Range Eternal sold. Here is a chance to get a life time of satisfactory kitchen service and a set of time kitchen atensils at the regular price of the range.

1) rty-two Points of Elernal Excellence make the Range Eternid Everlastingly Good. Its thies are lined with Eternametal which never custs or wears out and its patented polished top will not rust or pit like the old style polished tops on other

The Range Eternal out-looks, out-cooks and out-lasts every other range on the market. It is the most beautiful range you can buy. The brightly polished nickel, the blue steel of the body and the dull color of the top make this range a constant source of pride. Its spirit of shining cheerfulness penetrates to every nook and corner of your home.

The Range Eternal costs no more than other ranges but is twice as satisfactory. And don't forget that for the next few days we will give away a Ten Dollar set of aluminum ware with every Range Eternal sold.

Call at our store and inspect this range even if you are not ready to buy. It will be worth your while.

LEXINGTON GETTING DRY

When Transylvania College becomes a military camp at the open-ing of the fall term next week, Lexington will become nearly dry. Princtically every saloon will close, there being only a "fringe" on the out-skirts which will not be hit by the dry zone ruling, which also applies to the University of Kentucky, where there is already a military camp, thars in the hotels will be hit just the same as the regular saloons, and a trip of many ledecks will be necessary for those who desire n "nip." Some saloons which were closed when the camp now transferred to the university from the fair grounds can reopen as soon as the transfer is officially complete. officially complete.

From the region of Combrai west to St. Gubain and eastward to the territory north and northeast of Suissons, the huns are making a mighty effort to ward off the blows of the Allies, for here, it is believed, the enemy lines are in the most critical position. In spite of heavy rains and drenched ground the Brish wished forward toward Combrails ish pushed forward toward Cambrai while the French to the south are within sight almost of La Fere and St. Quentin. "Brains to conceive and energy to execute" expresses it in a nutshell

Just once get the right idea in your head that you ought to own your own home and quit giving nway one half of what you make to your handlord, but take it all for yourself, and then get busy and select what you want and BUY It. It is an injustice to yourself and famlly to continue the way you are. The cheapest and most plentiful thing in America today is Money and terms are so easy that you can practically say what it shall be. The following are n few of the many Golden Opportunities we have to offer you in the way of homes and splendid paying investments:

No. 317-510 acres of hand of which over 200 acres are cleared and of this 200 acres there are about 125 actes in rood orchard grass and balance in cult vation. This farm is all under fence and plenty of good cross fences. It has five houses, two of six rooms each, two of four rooms each and are of two rooms. It has two large tobacca barns. One of the turns is 100 feet long, and today would cost more than \$2,000,00 to build it. The other barn is an extra large barn and is stock and tobacco barn combined. It is idealt 40 x80. A complete blocksmith shop on place. What is a Branch House?

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Both are the natural result of growth and development in the living thing they belong to.

Swift & Company Branch Houses are located in distributing centers all over the country. They are fitted out with refrigerating equipment to keep meat cool, sweet and fresh.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help do it.

They are directed by men who have spent years learning how to get better meat cheaper to the places where it is needed.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerator cars, in such quantities that it can be disposed of while fresh and sweet.

Your meat dealer comes here to buy your meat for you-unless someone else can treat him better then we can.

So you need the branch house in order to live well; and the branch house and the packing plant need each other, in order to be useful to you.
